How to use Secret Codes:

In four of the Arcade games, we have programmed "Secret Codes". These are codes that students can type to unlock fun or silly little Easter eggs in the games. For example, in Sheep Bounce, typing "feedmewords" will switch out Cloud the Sheep for Word Monster.

It is important to note that because some codes give significant advantages, as soon as you enter any codes, your score will not be saved and will not be counted towards the High Score Leaderboard.

Once you navigate to a different menu, such as the Journey Menu or My Avatar, this will be reset, and your next set of scores will be saved again.

To enter a Secret Code, click on the Secret Code button in the menu of the game you want to play. Type the code (all lowercase and one word), then press Enter or Submit. If you entered a valid code, you will see a success popup, and the unlocked feature will be available during your next game.
